

## Versatile chemical protection that performs across a diverse range of applications

- High performance nitrile compound provides an outstanding combination of chemical resistance and strength.
- The glove offers a far superior snag, puncture and abrasion protection compared with rubber or neoprene gloves
- High levels of flexibility, comfort and dexterity.
- Suitable for heavy-duty cleaning applications

### Industries

- Automotive
- Metal fabrication
- Chemical

### Applications

- Handling rough machined metal parts
- Equipment repair & maintenance
- Painting or cleaning tools or robots
- Changing tools and dies
- Handling incoming goods
- Filling, blending and charging of raw materials
- Opening and draining pumps valves or lines
- Loading and unloading of process equipment
- Transferring liquids and solids between vessels and tanks and process equipment
- Supervision of running operation
- Handling outgoing goods: cans, vessels, bulkpack and cartons
- Testing
- Opening furnaces draining pumps valves
- or lines and crackers BTX process

# AlphaTec® Solvex®

## 37-165

Excellent chemical protection with a good level of grip, fit and comfort

Previously known as: Solvex® 37-165

### Key Features

- No inner cotton flocking ,reducing risk of lint contamination and making it ideal for production areas sensitive to the introduction of external impurities.
- Sandpatch finish giving the glove a smooth surface that decreases indirect costs ,thanks to fewer rejects of fragile parts
- Fully reusable, with an unequaled abrasion resistance
- Provides superb comfort for the wearer
- Combining superb value and quality.
