- Loading and unloading of process equipment
- Transferring liquids and solids between vessels and tanks and process equipment
- Supervision of running operation
- Handling outgoing goods: cans, vessels, bulkpack and cartons
- Opening furnaces draining pumps valves or lines and crackers BTX process

Key Features

- The glove incorporates revolutionary ANSELL GRIP™ technology to enable users to handle wet or oily objects using less force to grip ,
 - providing more control. This unique combination of liquid proof chemical resistance and grip, together with flexibility and dexterity, makes the AlphaTec glove the logical choice when working with
 - chemicals.
- Reliable chemical protection for added user safety. The bonded construction ensures that the coating polymer does not penetrate the
- liner during manufacture. The coating is therefore consistent and sound, significantly reducing the likelihood of chemical leakage onto
 - the skin
- 58-530B with black acrylic liner are recommended for outdoor applications
