

Unrivalled combination of chemical resistance, confident grip, and a comfortable inner lining makes these gloves ideal for outdoor application

- These insulated grip gloves offer a unique combination of liquid-proof chemical resistance and grip, together with flexibility and dexterity, that makes these gloves the logical choice when working with chemicals.

Industries

- Automotive
- Automotive Aftermarket
- Machinery and Equipment
- Metal fabrication
- Chemical

Applications

- Metalworking & assembly operations
- Body painting including surface inspection
- Applying sealers, touching up
- Changing tools and dies
- Handling application & cleaning tools
- Warehousing of raw materials
- Loading and unloading trucks and vehicles
- Filling, blending and charging of raw materials
- Transferring liquids and solids
- Loading and unloading of process equipment
- Transferring liquids and solids between vessels and tanks and process equipment
- Supervision of running operation
- Handling outgoing goods: cans, vessels, bulkpack and cartons
- Opening furnaces draining pumps valves or lines and crackers BTX process

Key Features

- The glove incorporates revolutionary ANSELL GRIP™ technology to enable users to handle wet or oily objects with less grip force and more control. This unique combination of liquid proof chemical resistance and grip, together with flexibility and dexterity, makes the AlphaTec glove the logical choice when working with chemicals
- Reliable chemical protection for added user safety. The bonded construction ensures that the coating polymer does not penetrate the liner during manufacture. The coating is therefore consistent and sound, significantly reducing the likelihood of chemical leakage onto the skin
- 58-530B with black acrylic liner are recommended for outdoor applications
- Longer version than the 58-530B for further protection
